Overheidsbreed standpunt voor de inzet van generatieve Al Rapport 30-01-2025

De overheid stimuleert (generatieve) AI, bij voorkeur open source, lokaal en Europees.

Wat is het standpunt?

Als overheid stimuleren wij innovatie ten behoeve van betere dienstverlening met behulp van generatieve Al. Daarnaast worden overheidsorganisaties aangemoedigd om deze technologie te betrekken in het zoeken naar oplossingen voor problemen.

Bij voorkeur worden open modellen gebruikt en, waar mogelijk, open source(-applicaties), of wordt hiernaartoe gewerkt⁶.

Stel geen vragen aan een LLM, maar laat je bevragen

Prompt 1

Ik wil graag beter begrijpen hoe ik Large Language Models beter kan gebruiken in mijn werk. Geef alsjeblieft niet meteen antwoord, maar ga mij eerst vragen stellen over wat mijn ervaring is met Al, wat voor soort werk ik doe, wat mijn context is en alles wat relevant zou kunnen zijn voor je advies. Stel vragen, en vraag door, totdat je genoeg informatie hebt verzameld.

Pas als je genoeg informatie hebt verzameld, mag je me tips gaan geven. Geef me dan twee tips die voor de hand liggen, en twee tips die onverwachts of experimenteel zijn.

Prompt 2

Kun je mij advies geven over de volgende stap in mijn leven. Geef alsjeblieft niet meteen antwoord, maar ga eerst vragen stellen over waar ik mee bezig ben, wat wat ik belangrijk vind, wat mijn context is en alles wat mogelijk relevant zou kunnen zijn voor je advies. Stel vragen, en vraag door, totdat je genoeg informatie hebt verzameld.

Pas als je genoeg informatie hebt verzameld, mag je me tips gaan geven. Geef me dan twee tips die voor de hand liggen, en twee tips die onverwachts of experimenteel zijn.
